NEXWLÉLEXM (BOWEN ISLAND)

- The Islands Trust council acknowledges that the lands and waters that encompass the Islands Trust Area have been **home to Indigenous peoples** since **time immemorial** and honours the **rich history, stewardship, and cultural heritage** that embody this place we all call home.
- The Islands Trust council is committed to establishing and maintaining mutually **respectful relationships** between Indigenous and non-Indigenous peoples. Islands Trust states a **commitment to Reconciliation** with the understanding that this commitment is a **long-term relationship-building and healing process**.
- The Islands Trust council will strive to **create opportunities for knowledge-sharing** and understanding as people come together to **preserve and protect** the special nature of the islands within the **Salish Sea**.

Virtual Learning Protocols

Chat Box

- Anytime! All the time!
- Respond to specific questions
- Wild Tea

Break Out Groups

- Popcorn conversations

The Chat Box – Wild Tea

- I will show you a prompt on the screen
- Type your response in the chat box BUT DO NOT press send
- I will do a 3-2-1 “Go” countdown
- Everyone will press send at the same time when I say “GO!”

Wild Tea!

What stands out from
our last session
together?

Break Out Groups – Popcorn

- In break out groups, everyone is a kernel
- You will have 3 minutes to pop - Everyone needs to pop!
- You pop by sharing a thought or a response, or asking a question to the group
- How can you support each other to make sure everyone pops in the time allowed?

3 Minutes

Popcorn!

What are you hoping to
learn more about today?

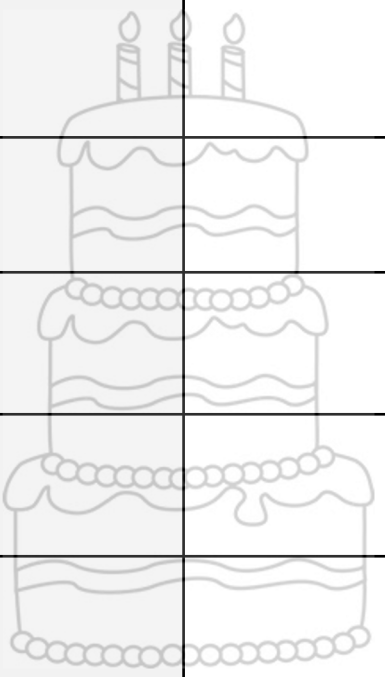

WHAT DOES INCLUSION MEAN?

How do we include
people who are
different

How do we teach
to diversity?

How do we
teach to
identity?

Students...	Strategies & Supports			
	who needs the most support	Universal Support (Good for ALL)	Targeted Support (CHOICE for ALL)	Essential Support (Good for ONE)
Need				
Need				
Need				
Need				
Need				
Need				
who needs the most challenge				

Range of Students (RTI)

How do we include
people who are
different

How do we teach
to diversity?

How do we
teach to
identity?

Now What?!

- Understand **WHAT** Inclusion is....

Understand **WHY** it is important...

How to we do it?

How do we make it easier?

INFRASTRUCTURE!

What Infrastructure can
be put in place that will
make inclusion easier?

What Does Research Say?

Student Level Infrastructure

Guiding conditions of inclusion describe that all students...

are **PLACED** in
and attending
inclusive
classrooms

are **PRESUMED**
competent and as
having
POTENTIAL

are in **PROXIMITY**
to and
PARTICIPATING in
learning with
PEERS

have
PURPOSEFUL
roles and
responsibilities

are **PLANNED** for
within the
curricular context

3 Minutes

Popcorn!

What is **ALREADY**
happening to support
inclusion in your context?

What Does Research Say?

Teacher Level Infrastructure

Teacher Professional Development that...

Fosters **collaboration** and the changing roles of educators

Is **situated, ongoing** and **inquiry-oriented**

What Does Research Say?

School & District Level Infrastructure

Allocate resources that are used to

Establish Universal Design for Learning Support Models

Shift away from a Medical & Deficit-Based Model of Special Education & IEPs

What Does Research Say?

Student Level Infrastructure

Guiding conditions of inclusion describe that all students...

are **PLACED** in
and attending
inclusive
classrooms

are **PRESUMED**
competent and as
having
POTENTIAL

are in **PROXIMITY**
to and
PARTICIPATING in
learning with
PEERS

have
PURPOSEFUL
roles and
responsibilities

are **PLANNED** for
within the
curricular context

19. **The Infrastructure of Inclusion: The Role of Place with Jo Chrona and Friends:** This podcast is the second in a five part series, in partnership with the Association of Washington School Principals (AWSP) and is looking at five guiding principles of inclusive education (the 5 P's). This month's focus is on place and I am talking to Jo Chrona, a passionate advocate for inclusion and strength-based

What Does Research Say?

SESSION 5

The Next Step?

Being **present** in a classroom is a definitive **first step**, it is however, **insufficient** in addressing the **needs** of students with disabilities once they are there.

Fryxell & Kennedy, 1995

Proximity & Participation

Proximity & Participation

ISLAND IN THE MAINSTREAM

MRS. JONES AND MRS. COOPER ARE STILL TRYING TO FIGURE OUT WHY FRED DOESN'T FEEL LIKE PART OF THE CLASS.

Shelley Moore, 2021

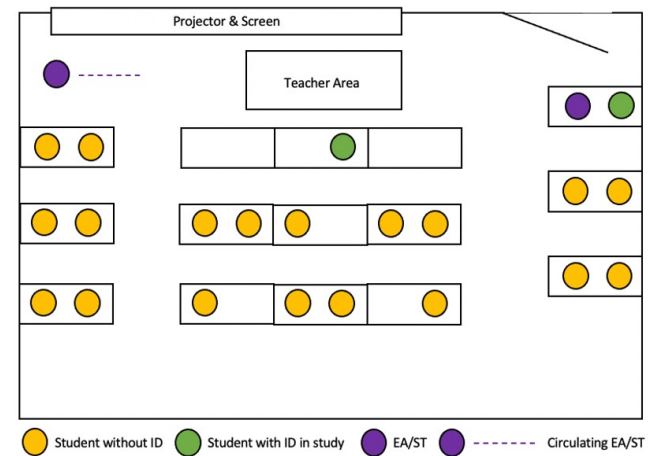

- Many students with disabilities, although **present**, typically spend their day **socially isolated** in their classrooms and other school activities **working on the periphery** with individually assigned assistants. (Jameson, McDonnell, Polychronis & Riesen, 2008; Feldman, Carter, Asmus & Brock, 2015)
- This over utilized approach used to support students with disabilities in classrooms, has **little to no empirical support to back it up** (Giangreco & Doyle, 2007; Carter, Sisco, Melekoglu & Kurkowski, 2007)
- Educational assistants that students with disabilities are left to interact with, “may **inadvertently hinder** the very social and academic goals they are present to promote (2010)” (Giangreco & Doyle, 2007)

The Likelihood of Proximity

Case 1 Classroom Arrangement (Choice Seating)

Case 5 Classroom Arrangement (Strategic Grouping & Choice)

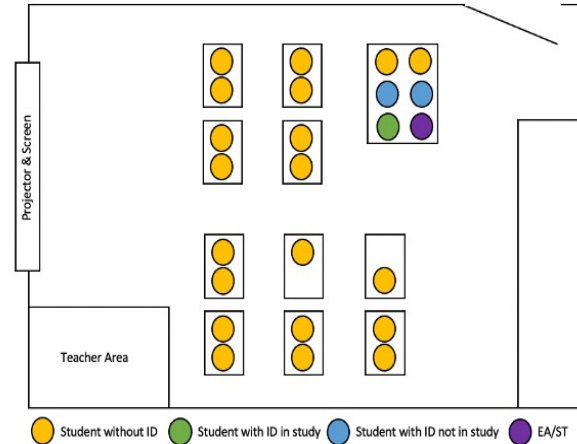

Case 2 Classroom Arrangement (Strategic Groupings)

Case 3 Classroom Arrangement (Strategic Groupings)

Case 4 Classroom Arrangement (Strategic Groupings)

The Likelihood of Proximity

Case	Students	Proximity	Classroom Seating Arrangements	
		SwID sitting in proximity to peers	Choice Seating	Strategic Seating
1	SwID 1-1		•	
	SwID 1-2	•	•	
2	SwID 2-1	•		•
3	SWID 3-1	•	•	•
4	SwID 4-1	•		•
5	SwID 5-1		•	
	SwID 5-2	•	•	

Proximity & Participation

The Likelihood of Participation

Case	Students	Learning Activities				Personal & Social Activities		
		SwID participated with peers in learning activities	SwIDs participated with peers in accessibly designed learning activities	SwIDs participated when receiving learning support from peers	SwIDs participated with peers in shared supports and strategies	SwIDs participated when receiving behavioural/ social support from peers	SwIDs participated in social peer invitations/ peer-initiated interactions	SwIDs and peers participated interactions outside of class
1	SwID 1-1	•	•		•	•		
	SwID 1-2	•	•	•	•		•	
2	SwID 2-1	•	•	•	•		•	
3	SWID 3-1	•			•	•	•	
4	SwID 4-1	•	•	•	•		•	
5	SwID 5-1	•	•	•		•	•	
	SwID 5-2							

How do we support students to be within proximity to each other?

- **Seating plans** that are **strategically** created with a purpose
 - **Flexible**, changing, never a pattern
 - **Allow different students** to work with each other
- **Prevent** students from working in **isolation** with an EA by:
 - Having EAs work with a **group of students** that includes a student with a disability
 - Having EAs **circulate**, and not be stationary
 - Having EAs **facilitate peer mentoring** and support
 - Have **2-3 students** with disabilities strategically sitting with peers in a class so that an EA can roam instead of be stationary

Wild Tea

What connections are you making?

How do we support students to participate with each other?

- It was **more common** for students with disabilities and their peers to participate in **social activities** without adult facilitation
- It was **more likely** for students with disabilities and their peers to **participate in learning activities** when:
 - Learning **activities were designed** to be accessible for all students
 - **Adults facilitated peer support** and connection e.g., modelling

Peer Support & Mentoring

- Peers are **not replacements** for instruction from adult support
- Peers can benefit from from the **shared support** provided when a student with a disability is there
- Peers can serve a valuable **co-regulating role** in the shared learning experiences

How educational assistants need to work differently

Watch later Share

How educational assistants need to work differently

How do we support students to participate with each other **in learning**?

- Peer Support/ Mentoring
- Shared Support
- Shared Learning Opportunities
 - Shared Learning Goal
 - Shared Access Point
 - Shared Learning Task
 - Shared Learning Groups

Peer Support/ Mentoring: Gr. 2

Shared Support Gr. 9 English

Images of events including activities, clothing, popular books, movies, people etc. from 2005

Songs and sounds to listen to

Textures to feel

Spices to smell and taste

Familiar flavours

Shared Learning Opportunities

Learning Outcome: I know different types of **forces**

Who are our monsters?

How many ways can we catch them?

The Lesson: Shared access point

Where in the world do things:

Fall

Push

Pull

The Lesson: Shared Supports

In groups of 3...

- 3 minutes at each station
- Record ideas
 - Draw
 - Write
 - Show
 - talk

The Activity: Shared Learning Task

Learning Target: I know different types of forces

Start Together

NEED

Finish building the **monster trap** with your group

MUST

Add a **falling force** to your monster trap

CAN

Add a **push or a pull force** to your monster trap

COULD

Add a **material** to **slow down** force

TRY

Add a **material** to **speed up** force

Go as far as you can!

The Activity: Shared Learning Groups

Popcorn

What do you notice about this example?

Math 8: Shared Learning Goal

Need to know	Must know	Can know	Could know
What are shapes? (square, rectangle, triangle, circle)	What is 2D/3D, prism, cube, rectangular prism, length, width, height, area, volume?	What is triangular prism, face, surface area?	What is cylinder, base, net?

The lesson – Shared access point

Words I Know	Words I Don't Know

Sort the pictures/words

rectangle

circle

triangle

square

cube

rectangular prism

cylinder

triangular prism

face	surface area	base	net
width	height	area	volume
2D	3D	prism	length

Shared Learning Task

Shared Learning Task

The lesson goal...

Access (NEED)	All (MUST)	Some (CAN)	Few (COULD)
I can build a 3D prism I can draw a line with a ruler	I can build a 3D prism with a volume of 24 units ³ I can create a drawing of a 3D prism with a volume of 24 units ³	I can build a net for a prism with the volume of 24 units ³	I can determine the surface area for a 3D prism with the volume of 24 units ³

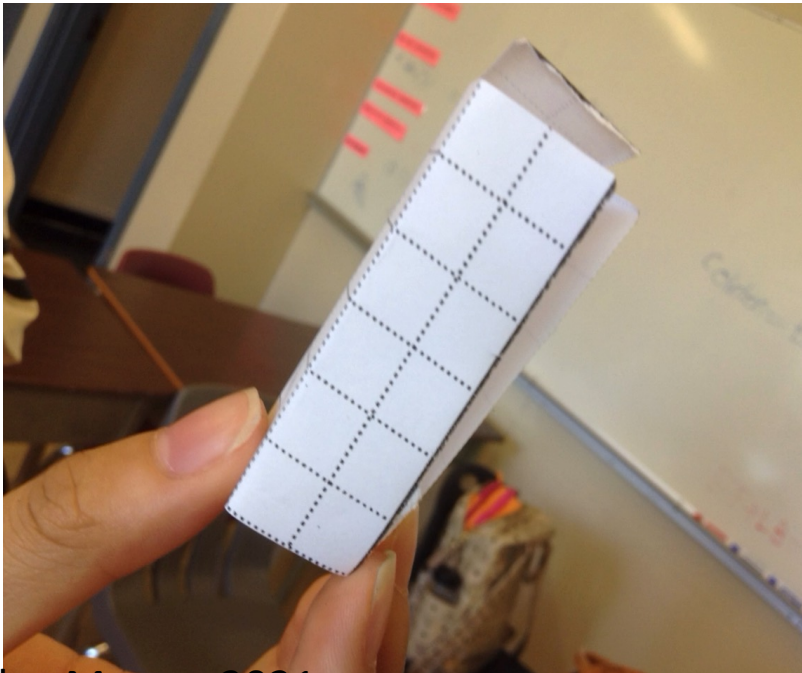

Shared Access Point

The lesson goal...

Access (NEED)	All (MUST)	Some (CAN)	Few (COULD)
I can build a 3D prism I can draw a line with a ruler	I can build a 3D prism with a volume of 24 units ³ I can create a drawing of a 3D prism with a volume of 24 units ³	I can build a net for a prism with the volume of 24 units ³	I can determine the surface area for a 3D prism with the volume of 24 units ³

Adding on Complexity

Popcorn

What do you notice about this example?

Why are Peer Connections Important?

Benefits for Students with Disabilities

- Increased attendance
- Increased outcomes during school
- Increased outcomes after leaving school
- Increased friendships
- Decreased Stigma
- Increased access to grade level curriculum

Benefits for Peers

- Increased attendance
- Increased appreciation of diversity
- Personal growth
- Increased awareness of disability issues
- Increased Advocacy Skills
- Increased interest in pursuing careers in field
- Increased friendships

Waterfall!

One takeaway from today?

Thinking Back, Moving Forward

- What is one thing that is already happening in your community?
- What is one new idea from today that you want to hold on to?
- What is one thing you want to try or do differently?
- Who is one person that you can connect with to make this happen?
- What is one lingering questions that you still have?
