What are **barriers**??

A shift in thinking...

- **There are some things we need to understand:**
 - Understand the thinking shift for how we view individuals with Disabilities
 - Understand the role that a context plays in teaching and in barriers that limit individuals
 - Understand that the less a context is limiting, the less support an individual needs

Shifting the Paradigm: Medical Model of Disability

Dear Parents,

We want to introduce ourselves to you as our son, Conor, is in your child's Grade 1 class this year. We thought it might be helpful for you to know a little about Conor because he cannot communicate for himself and you or your child might be curious to know more about him. We want to let you know that we are comfortable answering any questions you may have.

Conor was born with Down syndrome, otherwise known as Trisomy 21. Individuals with Down syndrome have one extra chromosome; instead of 46, they have 47 chromosomes. This is because of the triplication of the 21st chromosome. So we say Conor has a little something extra.

Children are often curious about Conor. After all, there are definitely some qualities about him that set him apart. They may also notice that he is treated slightly differently. For example, Conor will have support whilst at school and may leave school early for different therapy or medical appointments. What we really try to share with people is that Conor is more the same than different. Conor is a pretty typical little boy and is very excited about school. He has missed the friends he made in Kindergarten and is excited to be back. He loves to laugh, dance, play outside, have friends, watch videos on YouTube and play with his Disney princess dolls.

Children most often notice Conor's speech first, or lack of it. We often get asked why he doesn't talk yet. For children with Down syndrome this can be because they have had hearing challenges, because their mouths and tongues are shaped differently or because of something called apraxia of speech. Conor is mostly non-verbal because of apraxia of speech. This basically means his brain struggles to develop plans for speech movement. So his brain knows what he wants to say but his mouth muscles aren't getting the correct message to say it. Conor knows a lot of sign language as we have been signing with him since he was a baby. We are working on getting Conor familiar with a picture board to help bridge the communication gap with his new peers. It will take a lot of work for Conor to learn to say sounds and words better but he is working very hard at weekly speech therapy. If your child doesn't understand what Conor is trying to communicate to them, please encourage your child to ask their teacher to help interpret.

It may also take Conor a few minutes to adapt or adjust to new people or a new environment. I may appear he is being "rude" by ignoring you, saying "no" or refusing to say hello at first but I promise you once he warms up he will greet you with the sweetest smile and more often than not a hug (or two).

Conor has very good gross motor skills - these are the skills that allow children to walk, run, jump and climb. That being said, he is still not as strong or fast or stable as other children his age. Regardless, Conor loves to play just like all children and one of our greatest hopes is that he is liked and included. Conor can and will do most everything other children will do. It just may take him a little longer to get there.

If you would like to know more about Down syndrome, or your child asks a question that you are unsure about, please do not hesitate to contact us. You can contact me by email at [redacted] or by phone/text at [redacted].

Thank you for taking the time to read this and we really look forward to getting to know you.

Kieron, Danielle, Conor and Owen

CONOR GIBBONS AGE 6 GRADE 1

VISION STATEMENT

We want Conor to be respected and included in all aspects of community. Conor will be included in general education throughout his time in school. Conor will be supported to reach his full potential whilst embracing his differences, and guided to work with his strengths. We believe school will prepare Conor for future independence in college and the workplace. We envision Conor living a happy, purpose-filled and independent life surrounded by love, support and acceptance.

STRENGTHS

- visual learner
- following routines
- helping teacher
- musical
- receptive language
- empathetic
- following clear, step by step instructions
- motivated to please

WHAT DOESN'T WORK

- negative or forceful commands
- expectations without accommodation
- being rushed
- taking his behaviour personally
- unclear directions or directions with too many instructions

CONOR LOVES

Music, dancing, books, outdoor play, gross motor play, Disney princesses, water and water play, jumping, long hair, fruit, popcorn and ice-cream.

WHAT WORKS FOR ME

- "first this, then this" language
- lots and lots of praise
- time for transition with verbal and visual cues
- lots of repetition
- appropriate accommodations
- patience
- giving him a job
- silly and exciting language

WHAT I'M WORKING ON

- safety awareness
- communication
- social interaction skills
- fine motor skills

THEN! We look at what individuals need

Reducing Learning Barriers: UDL Targets

- Making a **commitment** to **reduce learning barriers** in a classroom community over time
- Based in brain research and **how we learn**
- Designed to be used for **ALL** learners
- Strategies are organized into 3 areas
 - How students are **engaged** in learning
 - How **new learning**/information is shared with/to them and how it is **processed**
 - How student **share** and are **metacognitive** of their learning
- UDL targets can be chosen based on the needs of a learning community

Reducing Barriers: Equity Targets

- Making a commitment to reduce inequities in the systemic structure of education
- Challenging ourselves to move away from the “we’ve always done it this way” mentality
- Looks at barriers linked to populations that have been/ are being marginalized and/or oppressed:
 - Racialized Students
 - Indigenous Students
 - Immigrants/Refugees
 - Multi Lingual Learners
 - Students with disabilities
 - LGBTQ2S+
 - Students negotiating mental health/trauma/poverty

Equitable Classroom Practice

1. Welcomes students by name as they enter the classroom
Asks students for correct pronunciation of their names; correctly pronounces students' names
2. Uses eye contact with all students
Makes culturally appropriate eye contact with all students
3. Uses proximity with all students equitably
Circulates around student work areas to be close to all students
4. Uses body language, gestures, and expressions to convey a message that all students' questions and opinions are important
Smiles, Nods head in affirmation; Leans toward students; Turns toward students who are speaking to show interest
5. Arranges the classroom to accommodate discussion
Arranges seating to facilitate student-student discussion; Seating to facilitate teacher-student discussion
6. Ensures bulletin boards, displays, instructional materials, and other visuals in the classroom reflect the racial, ethnic, and cultural backgrounds represented by students
Displays and uses materials (supplemental books) that reflect all students' racial, ethnic, and cultural backgrounds year round; Displays products and props from students' home and community background
7. Uses a variety of visual aids and props to support student learning
Uses multiethnic photos, pictures, and props to illustrate concepts and content; Uses appropriate technology to illustrate concepts and content

Equitable Classroom Practices Observation Checklist

Equitable Classroom Practices is a checklist of 27 specific, observable teacher behaviors that reflect cultural awareness through examples. This tool can be used as self-reflection or by an external observer to become more aware of equitable practices. Please note that the statements in red offer more definitive guidance regarding the equitable practice. This guide is not an all-inclusive description of best instructional practices.

Culturally Responsive School Checklist and Goal Setting

Look-Fors 	Yes 	Sometimes	No 	To improve on how this guideline is incorporated in my classroom or school, I will...
Guideline #1: Culturally responsive teaching is assets-based.				
Administrators, teachers, and staff show interest in ELs' home languages by learning a few words or phrases.				
Administrators, teachers, and staff are aware of students' interests outside of the classroom or school setting.				
School uses many means of communicating with families (e.g., translated notes, telephone calls, use of an interpreter).				

Reducing **Equity** Barriers: Reconciliation Targets

- Targeting systemic inequities specific to indigenous populations in Canada
 - Making a commitment as a teacher and community to shift inequitable structures over time
 - Focuses on learning history (truth)
 - Also focuses on changing pedagogical approaches – HOW we do things differently to reduce barriers
 - First Peoples Principles of Learning
 - Sacred Teachings
