Dr. Shelley Moore

WHAT IS inclusion ?

How do we
include people
with disabilities?

How do we teach
to diversity?

How do we
teach to identity?

In a world of
UNICORNS

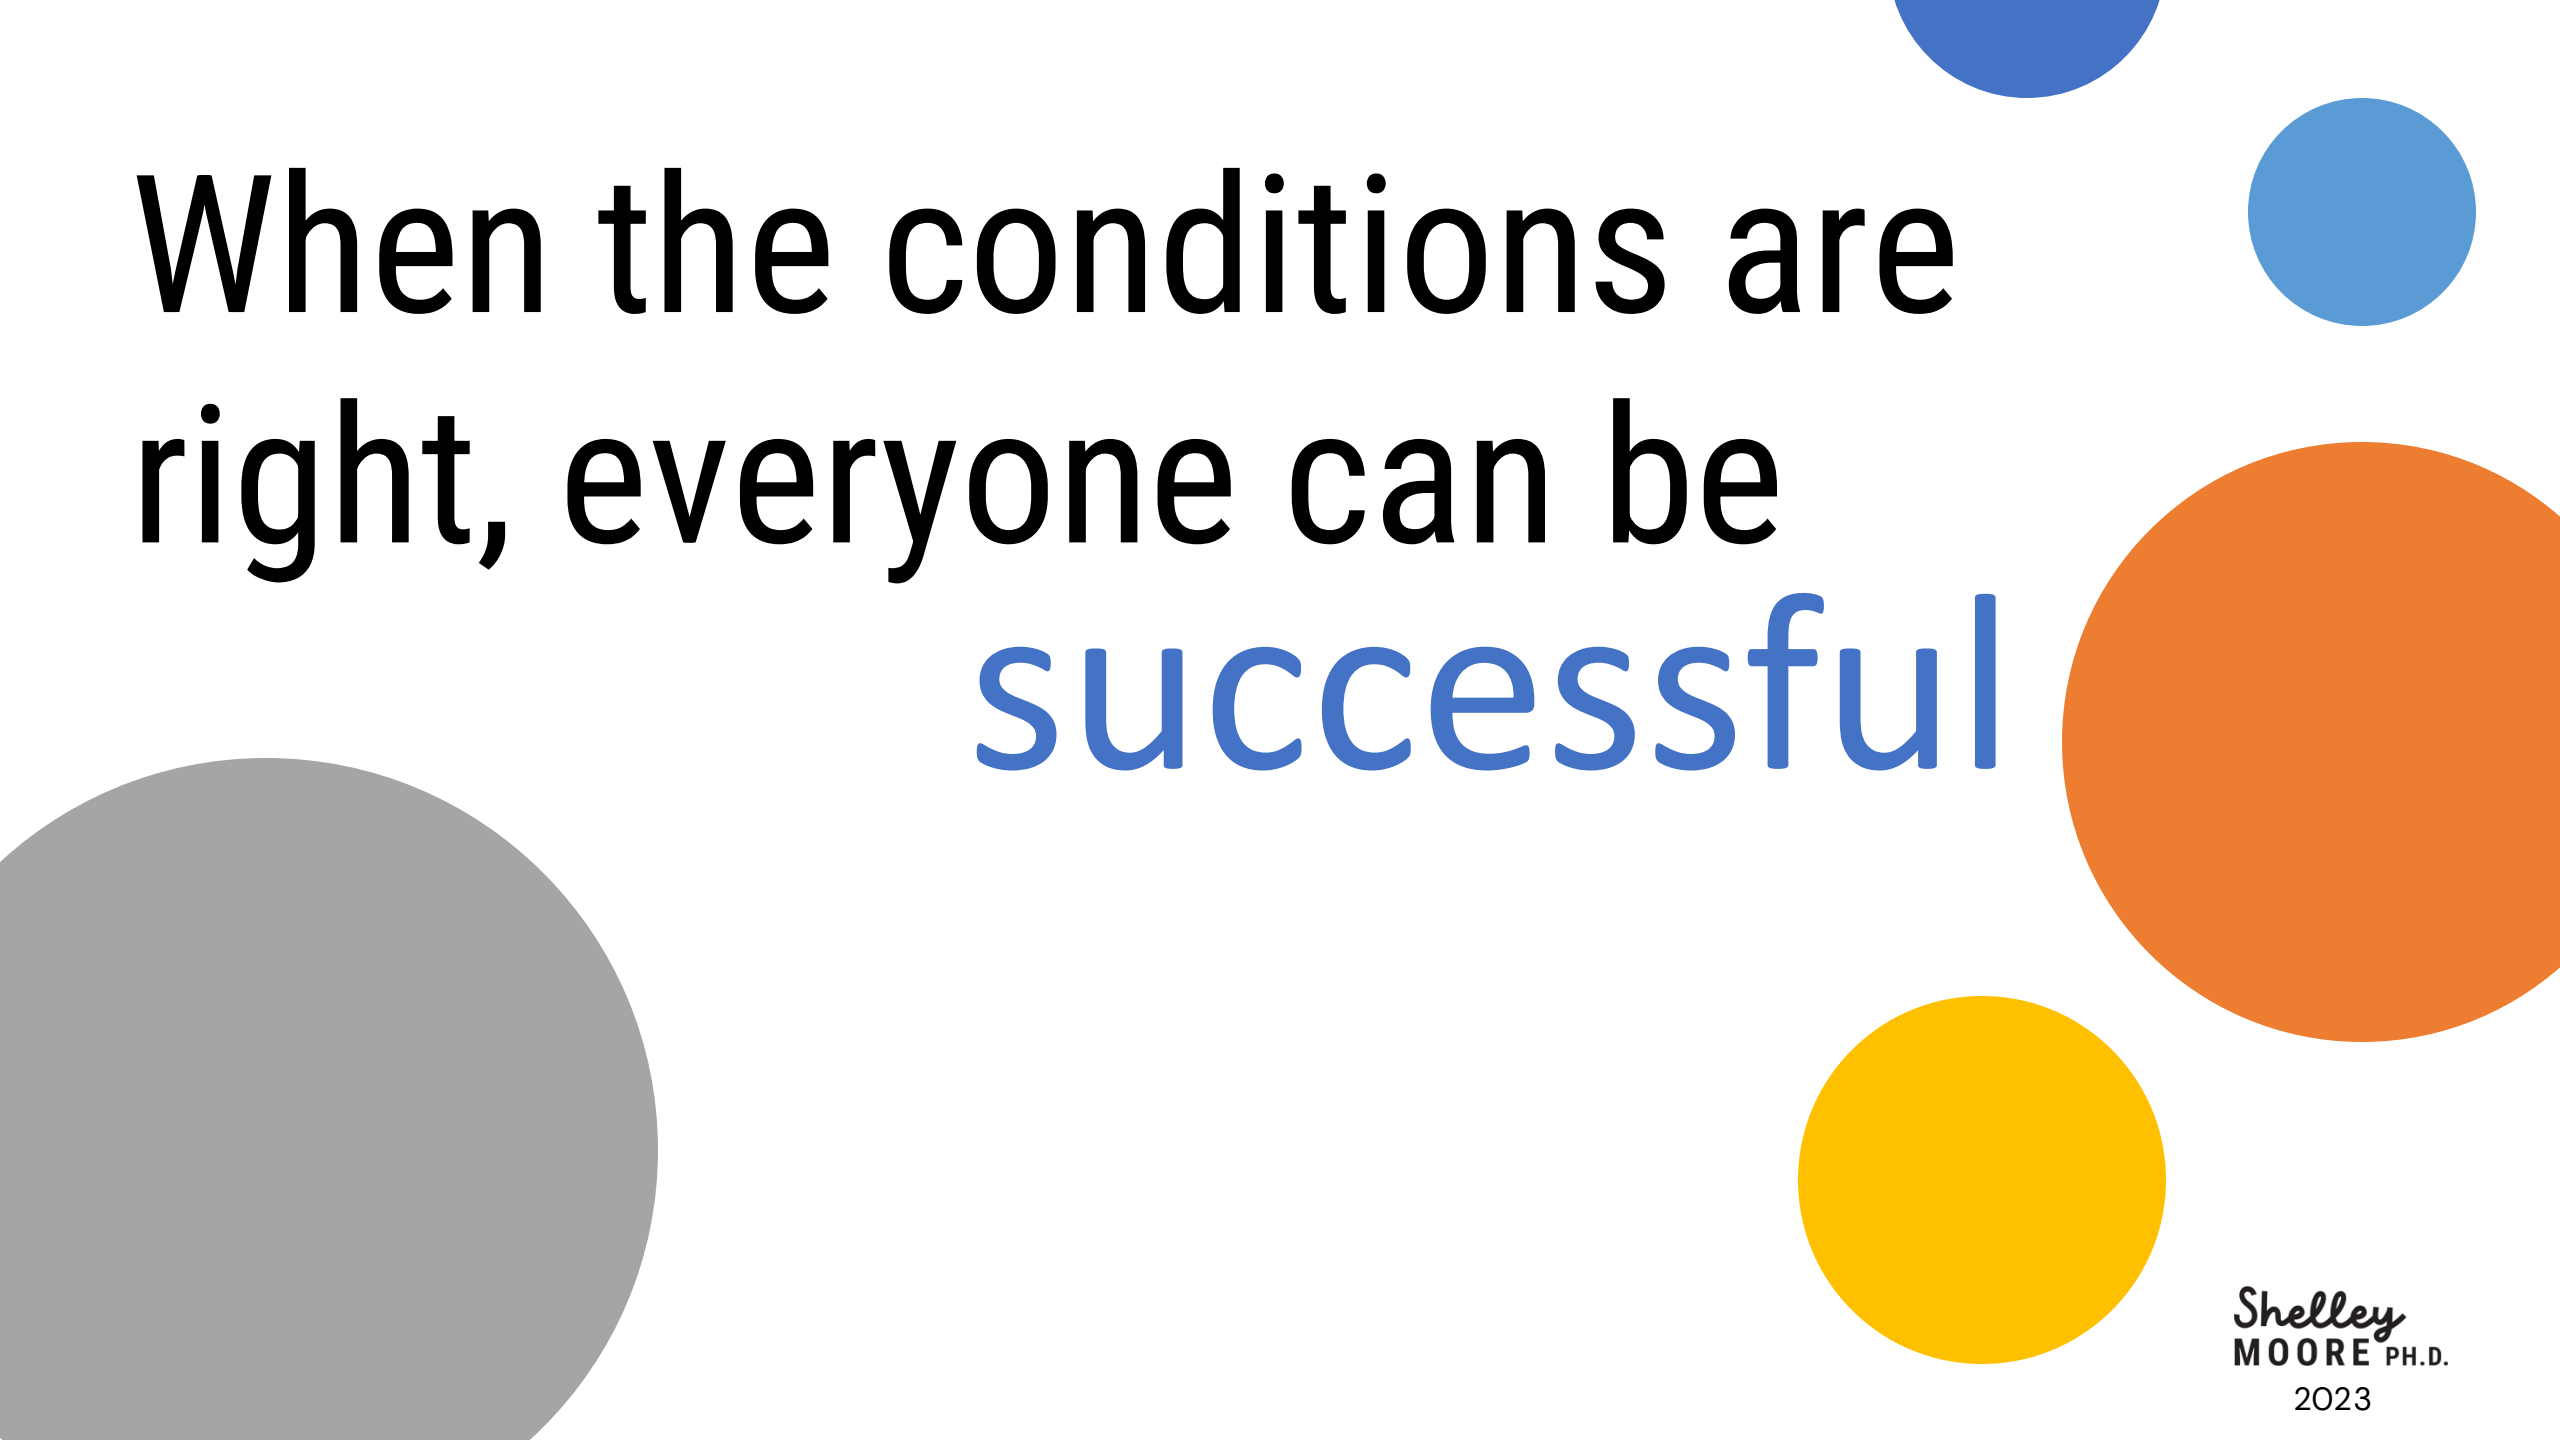

Be a **BAT**

In a world of
UNiCORNS

Be a **UNiCORN**
that celebrates a
BAT

The slide features several large, semi-transparent circles in the background: a large grey circle on the bottom left, a large orange circle on the right, a medium yellow circle at the bottom right, and two smaller blue circles at the top right.

When the conditions are
right, everyone can be
successful

Guiding Conditions of **inclusion** describe that all students...

are **PRESUMED**
competent and
as having
POTENTIAL

are **PLACED** in
and attending
inclusive
classrooms and
schools

are in **PROXIMITY**
to and
PARTICIPATING
with **PEERS**

have
PURPOSEFUL
roles and
responsibilities

are **PLANNED** for
from the start

Guiding Conditions of **inclusion** describe that all children & youth...

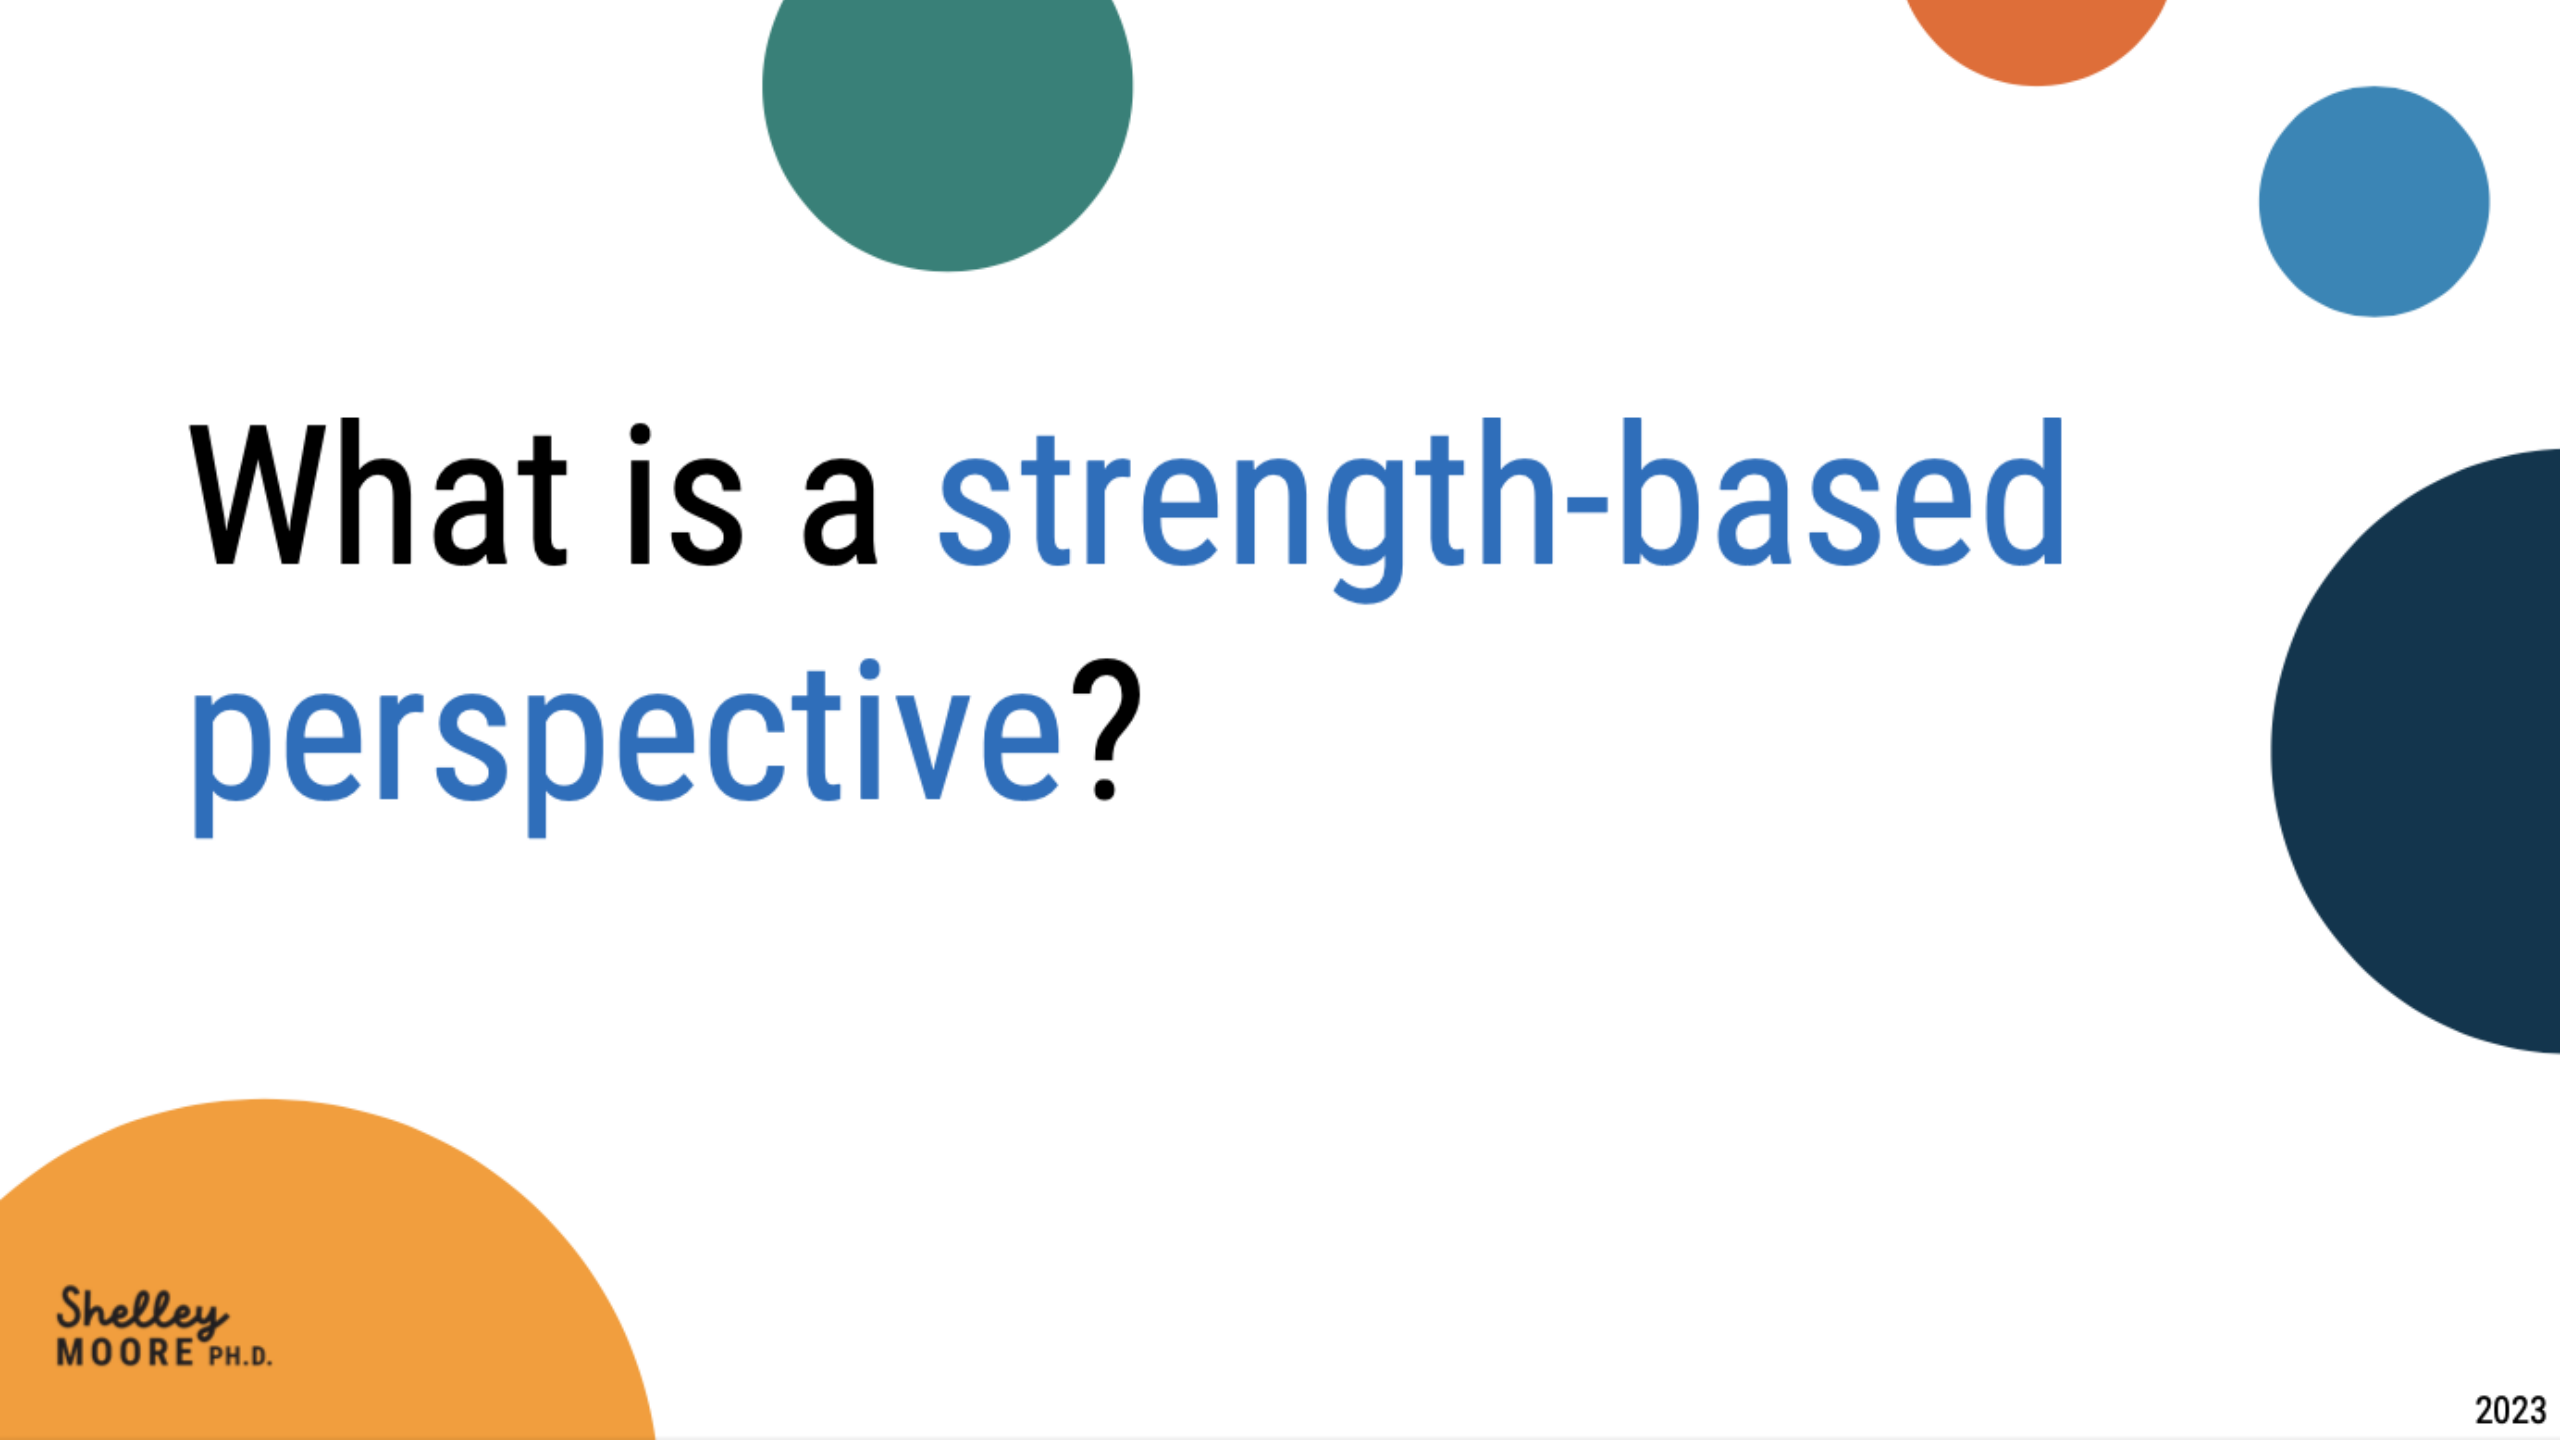

are **PRESUMED**
competent and
as having
POTENTIAL

are **PLACED** in
and attending
inclusive
programs

are in **PROXIMITY**
to and
PARTICIPATING
with **PEERS**

have
PURPOSEFUL
roles and
responsibilities

are **PLANNED** for
from the start

What is a strength-based perspective?

What is a **strength-based perspective**?

Guiding Conditions of **inclusion** describe that all children & youth...

are **PRESUMED**
competent and
as having
POTENTIAL

are **PLACED** in
and attending
inclusive
programs

are in **PROXIMITY**
to and

with **PEERS**

have
PURPOSEFUL
roles and
responsibilities

are **PLANNED** for
from the start

Why are students not often viewed through a **strength-based perspective**?

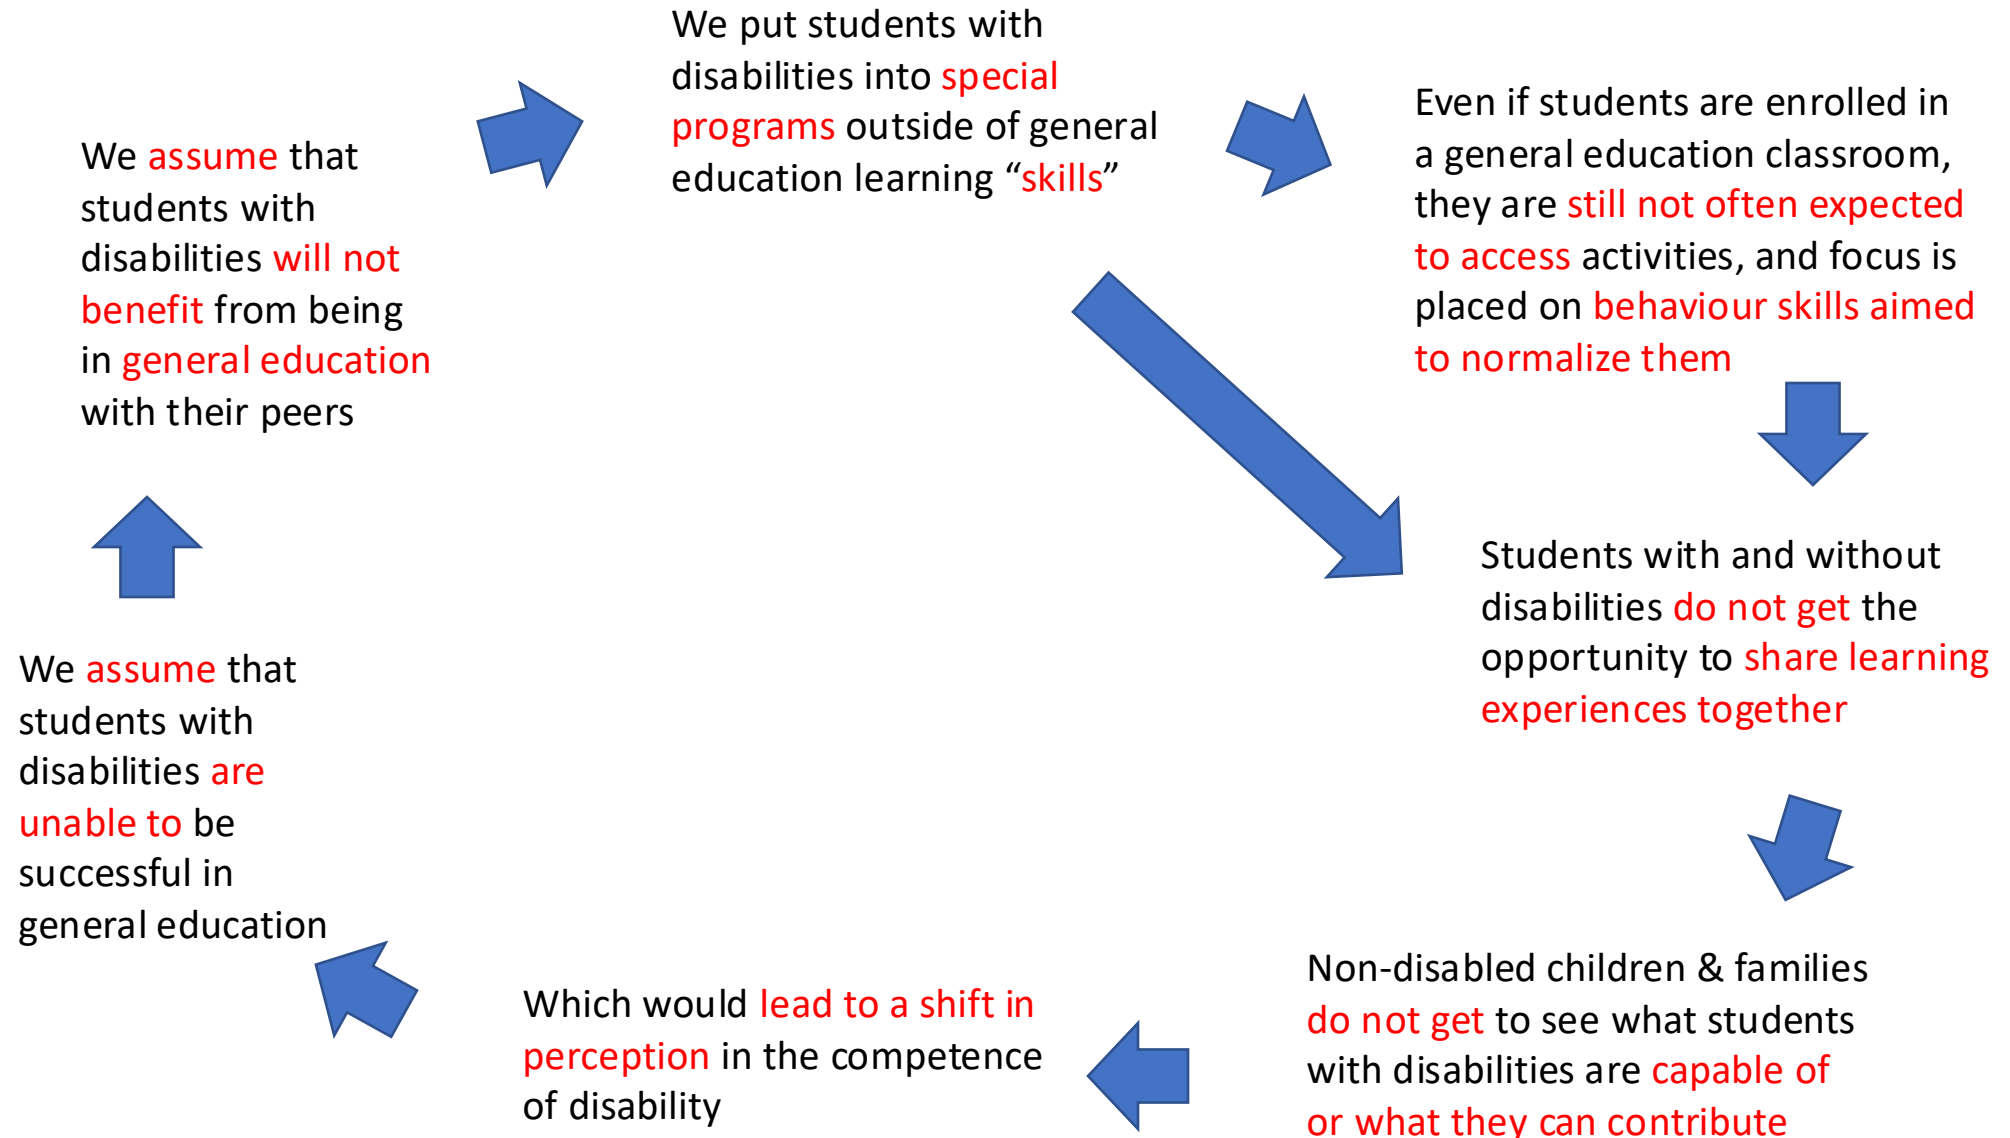

Down's Syndrome

Trisomy of chromosome 21.

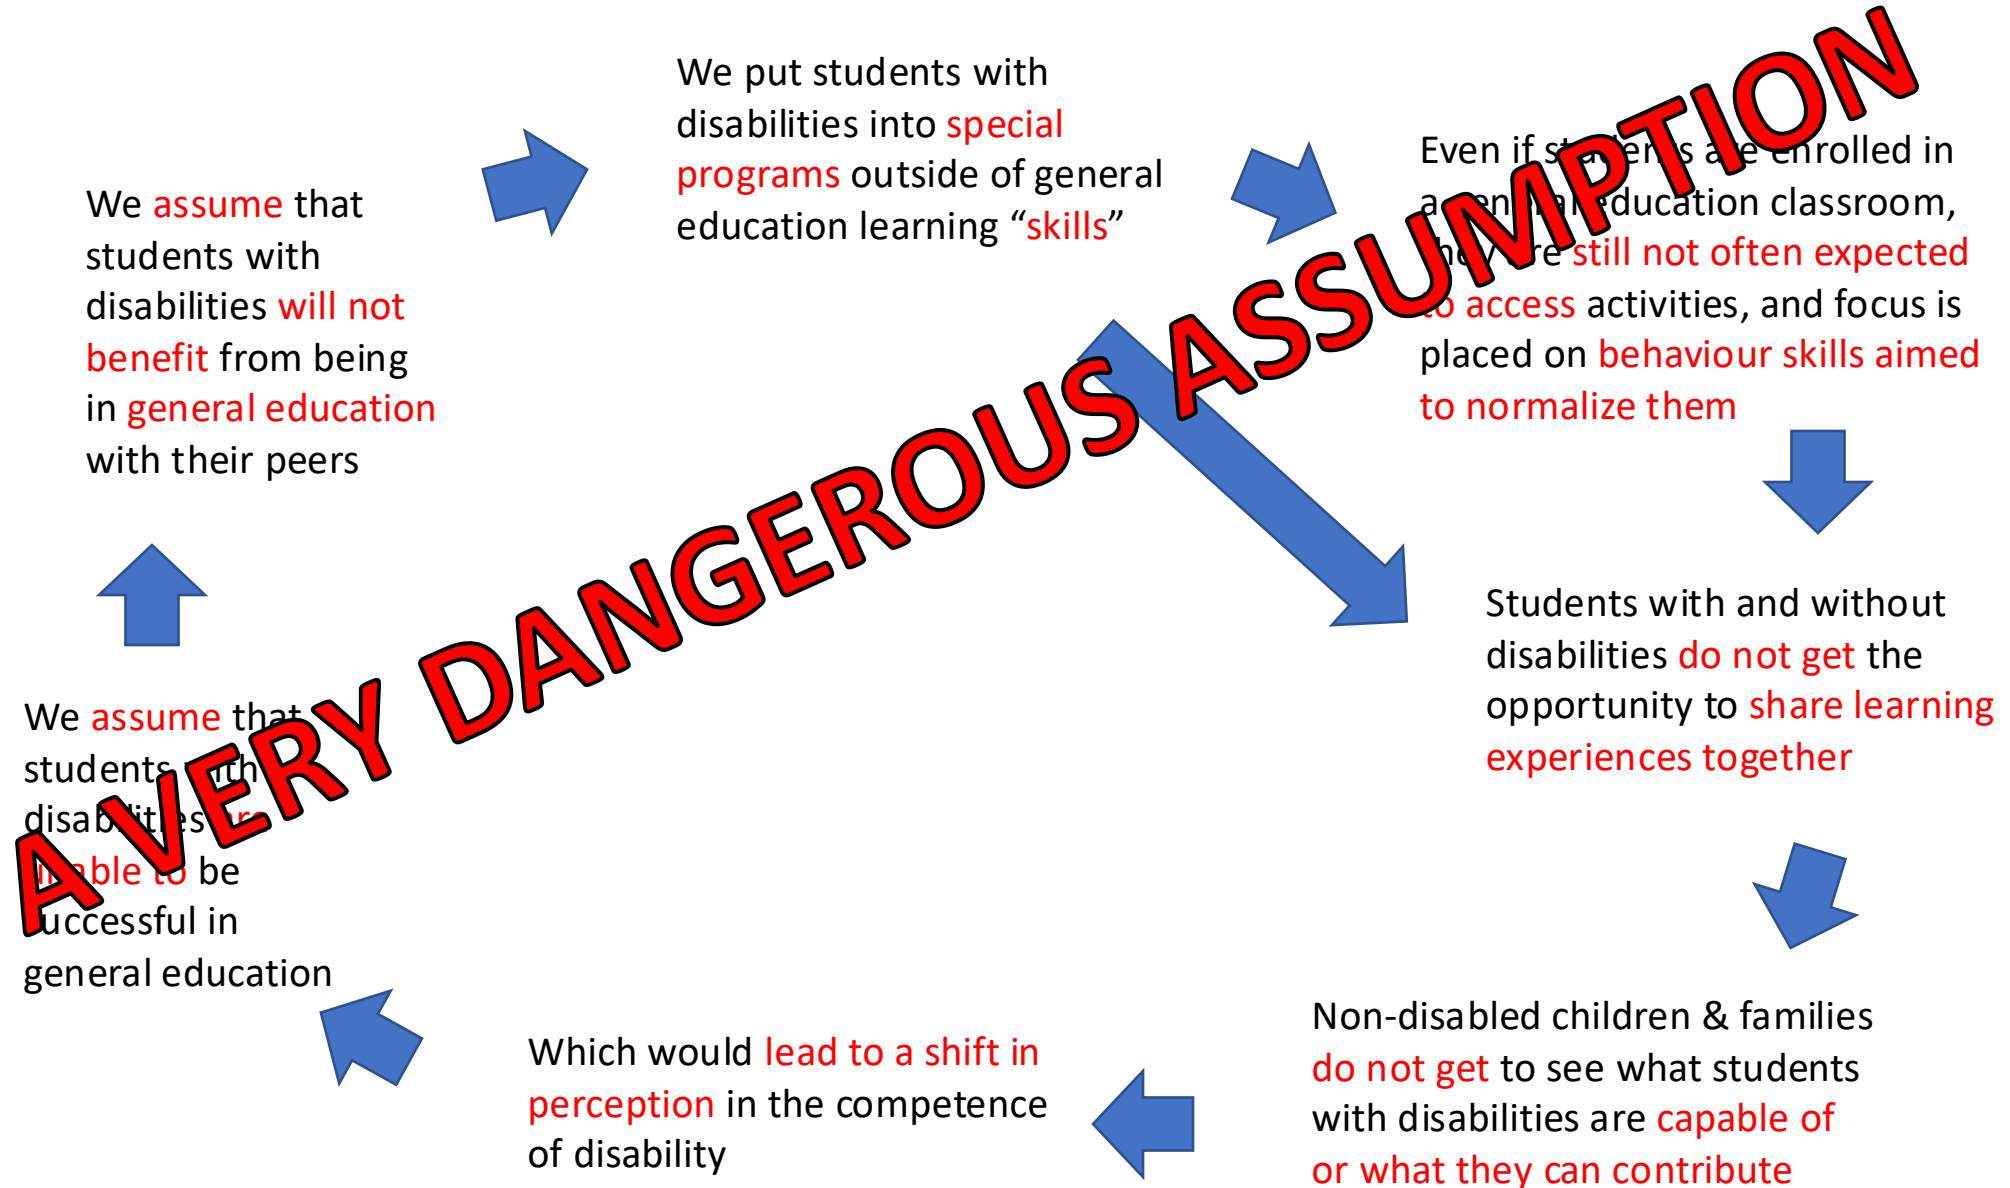

Alzheimer's disease
can occur.

What happens when there is a perception that a child “can’t”

What happens when there is a perception that a child “can’t”

The Least Dangerous Assumption

Even if **we are wrong** about a child's **capability** to have access inclusive community programs with their peers, **the consequences** of that presumption **being wrong** are **not as dangerous** as the **alternative**.

Cheryl Jorgenson

The Least Dangerous Assumption

Changing our mindset about disability will change how we respond and make decisions about educational and community programming.

Access to inclusive community programs, promotes learning, inclusion, achievement and quality of life after schooling, for both children with and without disabilities.

The Power of Perception (Moore, Butler & Schnellert 2022)

How can we Presuming Competence?

- Children with disabilities so often **need** to “**prove**” that they can behave **before** **given access** to community programming
- Biklen & Burke suggest:
 - Rather than proving their ability, presuming competence is **assuming that all** children have **ability** in any and **all places**

How can we Presuming Competence?

- Focus more on **strengths, interests, abilities, barriers** and **needs** and less on deficits
- Make space for **student voice and agency** and give opportunities for students to be a part of the **decision making** in their educational programming
- Provide children with a **means to communicate** other than words (visuals, gestures, voice)

How can we Presuming Competence?

What Self Advocates say:

- **Talk to me**, not my support dog, or my support staff, or my parents
- **Do not** call me “**low functioning**” or refer to me as a developmental age, E.g., “**like a 2-year-old**”
- Use **age-appropriate** tone of voice, inflection, vocabulary, and conversation topics when **interacting** with me
- **Respect my privacy** when talking about my personal care, medical needs and/or personal and sensitive information

Jorgenson, McSheehan & Sonnenmeier

Is Presuming Competence Enough?

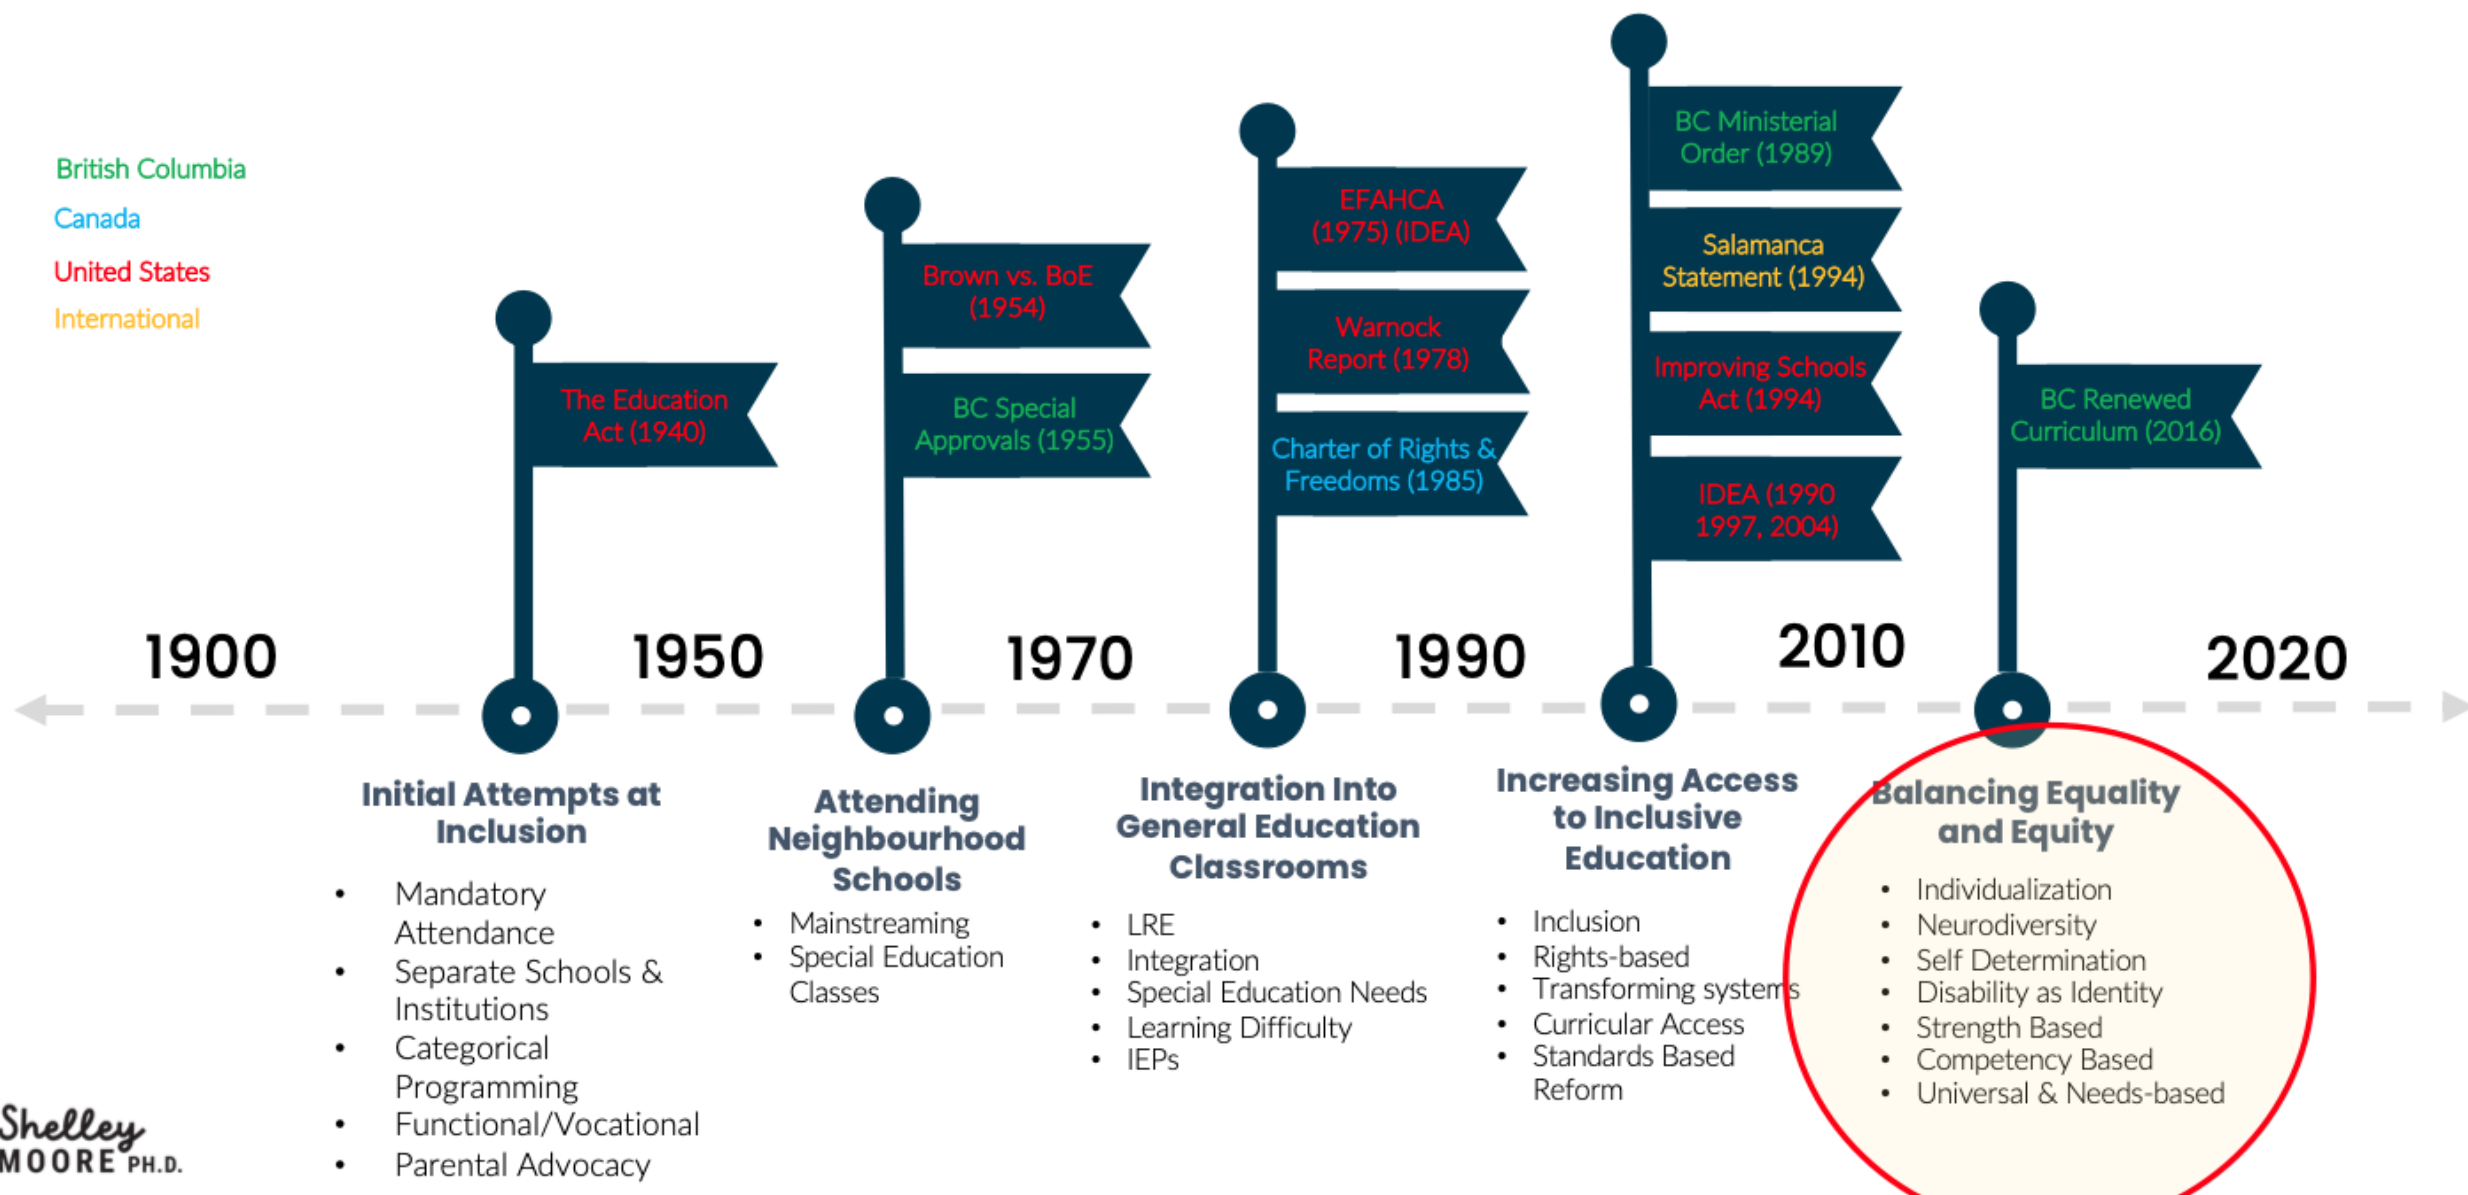

Nope!

Now we need to **focus** on the **decisions** that we make that are **based on our perceptions** and assumptions about students

History & Evolution of Inclusion for Students Intellectual Disabilities

History & Evolution of Inclusion for Students Intellectual Disabilities

What is one useful idea?

What is one thing you want to try?

What is one thing you want to think about?

What is one thing you want to learn more about?

What is one thing you want to share with someone
who is not here today?
