WHAT DOES

inclusion

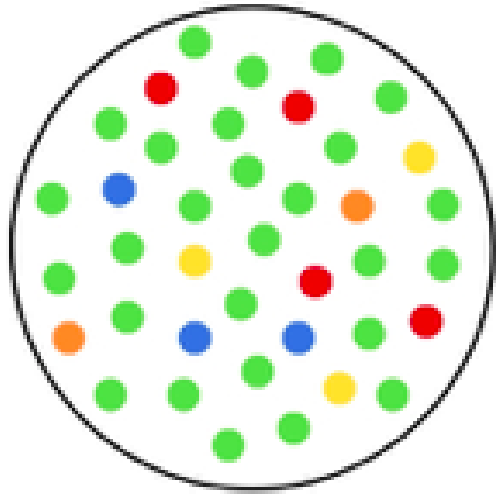

MEAN?

WHAT DOES

inclusion

LOOK LIKE?

How do we do inclusion ?

successful

What is a barrier?

What is a need?

Reducing Barriers

Supporting Needs

FIRST! Reduce or eliminate barriers in place by reducing or eliminating barriers for everyone in the community

All students
need to show
learning

Some plants need added nutrients

Some plants need companions

THEN! Determine the needs of individuals and anticipate the supports & strategies that they will require in **individualized** ways

A few plants may need very specific temperatures and humidity levels

Multiple Layers of Needs Based Support

Supporting the **Bats**...

What **one** needs

Supports & Strategies are
useful for **ONE**

Supporting the Unicorns...

Inclusive IEP Supports & Strategies

Priority Need Area	Universal Design for Learning Indicators that will reduce barriers (Teach to All; Useful to all)	Specific & Targeted Supports & Strategies that will increase agency (Teach to All; Useful to Some)	Individualized Supports & Strategies that will increase access (Teach to All; Useful for One)
Communication (expression)	4.2 – optimize access to accessible materials, assistive technologies and tools (provide access to and teach all students about different technologies and tools) 5.2 – use multiple tools for construction, composition and creativity (model & teach all students how to use technologies and tools) 5.4 – address bias related to modes of expression (teach all students about people who use different technologies and tools)	4.2, 5.2 – AAC, PECS, text to speech, speech to text, word predictions, apps- Stoybird, Pictello 5.4 – include books with characters that use communication technologies	4.2, 5.2: KJ – Touch chat AAC
Intellectual Ability (Access)	8.2 - optimise challenge & support (scaffold goals and activities that increase in challenge for all students) 8.3 - foster collaboration, interdependence and collective learning (design accessible and scaffolded activities that create shared learning experiences) 1.2 - support multiple ways to perceive information (options of text at different accessibility levels and modalities for learning content) 3.3 - cultivate multiple ways of knowing and meaning making (design activities that utilize multiple modalities	8.2 – access point to learning standards, activities 8.3 – accessible & shared activities, collaboration roles in groups 1.2 – visuals, multi-media, diverse text levels 3.3 - activities that include visual, written, oral, kinesthetic ways of understanding	1.2 - KJ - content preloading into touch chat, individualized text at emergent literacy level

When the conditions are
right, everyone can be
successful

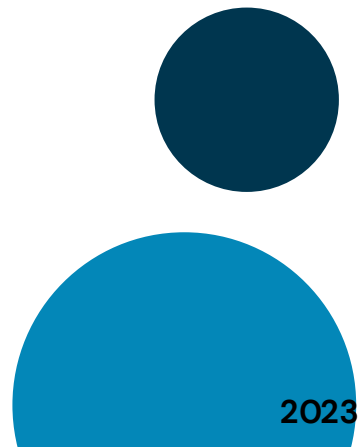

What is one useful idea?

What is one question you have?

What is one thing you learned?

What is one thing you want to want to share with
someone who is not here?
